## Ideas to steal

Natural materials, nautical touches and lots of white bring a light and airy feel of the outside in

### KEY FEATURE: Shiplap wall cladding

**W**alls of exposed brick and whitewashed cladding create an easy, informal feel. This cladding, called shiplap, is inexpensive and consists of overlapping horizontal panels fixed to a framework of battens. Dermata, a member of ratedpeople.com, estimates it would cost £750 to fit similar cladding, including the painted finish, on a standard living-room wall. For DIYers, Wickes sells unfinished shiplap panels from £16.99 for a pack of five and its website has a PDF leaflet with instructions for use.
