Home Improvement Project Budgets

Year on Year Change - Home Improvement Project Budgets

Chris Burke, Director of Analytics said:

"In February 2013 the Home Improvement Project Index achieved a 30% increase versus February 2012 and month on month was only down slightly by 14%, versus the record breaking Jan 2013.

"Project Budgets softened their decline to 3% year on year. Budgets have historically tended to peak in January and then decline through the year.

"Year on year we would expect to continue to see strong double digit project volume growth going into March 2013 given the performance in the first two months of the year".

Note: Projects are submitted via RatedPeople.com less re-submitted and/or amended existing projects.
