Year on Year Change - Home Improvement Project Budgets

Chris Burke, Director of Analytics said:

"For March 2013 the Home Improvement Project Index was up 53% versus March 2012, and Q1 2013 was up 39% versus Q1 2012.

"Project Budgets softened their decline to 4% year on year, mainly due to a mix shift versus the prior year.

"We would expect the strong double digit year on year project volume growth to strengthen going into April 2013, in response to improved fundamentals".
